

UK Reporting Fund Status - Report to Participants
Deuterium UCITS ICAV
Period ended 30 September 2022

This report is relevant if you were an investor in a reporting share class of the above-named fund on 30 September 2022.

The share classes of the sub-fund set out below have been approved as having 'UK Reporting Fund status' by HM Revenue & Customs under the provisions of The Offshore Funds (Tax) Regulations 2009 (the 'Regulations'). This report constitutes the Report to Shareholders for the purposes of the Regulations in respect of the accounts period ended 30 September 2022. You should be aware that there may be a requirement for you to pay tax on 'excess reported income' as though you had actually received a distribution from the sub-fund.

If excess reported income has arisen, it is deemed to have arisen on the 'fund distribution date', being the date six months following the end of the reporting period, i.e 31 March 2023.

In order to compute the quantum of excess reported income relating to your shareholding, this can be calculated by reference to the number of shares held by you as at 30 September 2022.

Excess reported income figures quoted below are in the currency of the sub-fund.

All share classes below remain reporting funds at the date this report was made available to investors.

Should you have any queries with regards to the content of this report, please contact your tax advisor.
