Risk and Reward Profile

The calculated risk and reward category, as shown above, uses a method of calculation derived from European Union rules.

Funds in category 5 have in the past shown a high volatility. With a fund of category 5, you have a high risk of losing money but your chance for gains is also high.

Investors should refer to the most up to date Key Investor Information Document available from the website of the Investment Manager at [deuterium.us](https://www.deuterium.us)

Fund Objective, Policy and Approach

The Fund's objective is to generate positive returns in all market conditions over a rolling three-year period.

The Fund aims to achieve its objective by allocating investments across a range of asset classes including global equities, debt, currencies, commodities, property and cash. At any given time, the Fund may be invested through derivatives in some or all these asset classes and may have substantial exposure to a single asset class, industry sector, country, region and bond duration.

The Fund pursues a policy of active allocation across asset classes and global markets according to a global, long-term and dynamic asset allocation model that is adjusted from time to time by short-term tactical asset allocation shifts in anticipation of changing market, fiscal and political conditions.

The Umbrella, in conjunction with the Manager and the Investment Manager, has categorised the Fund as an Article 8 fund under SFDR. Further information in relation to the sustainability-related aspects of the Fund can be found in the prospectus and supplement at <https://www.deuterium.us>

* 2022 performance is from 1 November 2022 to 31 December 2022

Performance is shown net of fund level fees and expenses. The above table details the net performance of the Global Dynamic Allocation Long/Short S USD share class from 1 November 2022 to 18 November 2022 and the net performance of the F USD share class from its launch on 18 November 2022 onward.

The Morningstar macro trading USD index has been included for information purposes only. Morningstar macro trading USD is not a benchmark for the fund and the fund is not managed by reference to the Morningstar macro trading USD index nor does it seek to outperform the Morningstar macro trading USD index.

Past performance is not necessarily a guide to future performance. The value of your investment can fall as well as rise and you may not get back the original amount you invested. The value of any foreign investments may be affected by changes in currency exchange rates.

Important Information

- This communication is issued by Deuterium Capital Management, LLC 1006 North Fort Harrison Avenue, Clearwater, Florida 33755 – 3017 and Deuterium Investment Advisors Limited, Cannon Green, 27 Bush Lane London EC4R 0AA (together or separately “Deuterium”). Deuterium Capital Management, LLC (“DCM”) is an SEC-registered investment adviser, CRD #294051, SEC #801-112932. Registration as an investment adviser with the SEC does not imply a certain level of skill or training of DCM, or its personnel. Deuterium Investment Advisors Limited (“DIA”) (FBN - 804110) is an appointed representative of Kroll Securities Limited (FBN - 466588), which is authorised and regulated by the Financial Conduct Authority in the United Kingdom (“UK”). Deuterium UCITS ICAV is registered under the laws of Ireland with registered number Cq38490 as an Irish Collective Asset-management Vehicle which is constituted as an open-ended umbrella UCITS fund with segregated liability between sub-funds. Deuterium UCITS ICAV is authorised and regulated by the Central Bank of Ireland. This factsheet has not been reviewed, endorsed or approved by any regulatory body.
- This is a marketing communication. This communication is not a contractually binding document. Please refer to the prospectus of the Deuterium UCITS ICAV and to the KIID and/or PRIIPS KID and do not base any final investment decision on this communication alone.
- This document is intended for authorized recipients only. This communication is directed only at professional clients, professional investors, advisers or eligible counterparties as defined by the Financial Conduct Authority in the UK (“FCA”). Many of the protections provided by the UK regulatory structure to retail clients may not apply to investments in any fund promoted by Deuterium including access to the Financial Services Compensation Scheme and the Financial Ombudsman Service.
- This document is for information purposes only and is not intended as investment advice, an offer or solicitation with respect to the purchase or sale of any security and investors should consider seeking further financial advice before subscribing. It includes proprietary information of Deuterium and is presented for discussion purposes only. Any unauthorized copying, disclosure, or distribution of the information in this material is strictly forbidden without the express written consent of Deuterium.
- There is no guarantee that any investment objective will be achieved. Past performance is not indicative of future results, which may vary. Actual results may differ materially from those expressed or implied.
- Past performance is not a guide to future performance. The value of your investment can fall as well as rise and you may not get back the original amount you invested.
- The positions and stocks identified herein do not represent all of the investments made or recommended by Deuterium. It should not be assumed that other investments made or investments made in the future by Deuterium are or will be profitable. Past performance does not guarantee future results.
- The Deuterium Global Dynamic Allocation Fund (the “Fund”) is an Undertaking for the Collective Investment in Transferable Securities (“UCITS”), a sub-fund of an Irish Collective Asset-management Vehicle (“ICAV”) and is not marketed in the United States.
- Past performance results of the fund strategy include results of the Merian Global Dynamic Allocation Fund (the “Merian Fund”) and are for illustrative purposes and are not necessarily indicative of future performance of the strategy.
- The Merian Fund was managed from its inception by John Ricciardi and with a substantively similar investment objective and investment process as the Fund. That being said, any performance results portrayed for the Merian Fund relate only to the investment strategy employed for the Merian Fund over the specified investment period. No direct comparison should be presumed between the Merian Fund and Fund or any other current or future funds managed by Deuterium. No representation is being made that any portfolio managed by Deuterium will or is likely to achieve results similar to those of the Merian Fund, and this data is provided for informational purposes only.
- Simulated/Hypothetical performance results are unaudited and do not reflect actual results of the current Fund. Simulated/Hypothetical performance results are for illustrative purposes only and are not necessarily indicative of performance that would have been actually achieved if an investment utilized the current strategy during the relevant periods, nor are these simulations necessarily indicative of future performance of the strategy.
- The graphs, charts and other visual aids are provided for informational purposes only. None of these graphs, charts or visual aids can of themselves be used to make investment decisions. No representation is made that these assist any person in making investment decisions and no graph, chart or other visual aid can capture all factors and variables required in making such decisions.
- An investment with Deuterium is speculative and involves significant risks, including the potential loss of all or a substantial portion of invested capital, the use of leverage, and the lack of liquidity of an investment.
- This document contains forward-looking statements. The opinions, forecasts, projections or other statements, other than statements of historical fact, are forward-looking statements. Actual events or results or the actual performance may differ materially from those reflected or contemplated in such statements. Prospective investors should pay close attention to the assumptions underlying the analyses and forecasts contained in this presentation, which are based on assumptions believed to be reasonable in light of the information presently available. Such assumptions may require modification as additional information becomes available. Nothing contained in this presentation may be relied upon as a guarantee, promise, assurance or a representation as to the future. These statements have not been reviewed by anyone outside of Deuterium and while Deuterium believes these statements are reasonable, they do involve a number of assumptions, risks and uncertainties.
- References to market or composite indices or other measures of relative market performance over a specified period of time are provided for information only. Reference or comparison to an index does not imply that the portfolio will be constructed in the same way as the index or achieve returns, volatility, or other results similar to the index. Indices are unmanaged, include the reinvestment of dividends and do not reflect transaction costs or any performance fees. Unlike indices, the Fund will be actively managed and may include substantially fewer and different securities than those comprising each index.
- Morningstar USD Flexible Allocation: Flexible Allocation portfolios have a largely unconstrained mandate to invest globally in a range of asset types. These portfolios tend to hold regularly rotating positions in stocks, bonds, commodities, cash and their related derivatives. These funds may exhibit characteristics fitting cautious allocation, moderate allocation, or aggressive allocation at any point in time. They may also regularly rotate between countries and regions. These portfolios typically hold from 20% to 80% of exposure in equities and between 20% to 80% of exposure in fixed income and cash.
- Morningstar CHF Moderate Allocation: CHF Moderate Allocation funds have a mandate to invest in a range of asset types for a CHF-based investor. The equity component will usually be between 35% & 65% in the normal running of the fund. These portfolios tend to hold regularly rotating positions in stocks, bonds, commodities, cash and their related derivatives. These funds may exhibit characteristics fitting cautious allocation, moderate allocation, or aggressive allocation at any point in time. They may also regularly rotate between countries and regions.
- Morningstar EUR Flexible Allocation – Global: funds have a largely unconstrained mandate to invest globally in a range of asset types for an EUR-based investor. Funds in this category may have up to 30% gross exposure allocated to alternative sub-strategies. These portfolios tend to hold regularly rotating positions in stocks, bonds, commodities, cash and their related derivatives. These funds may exhibit characteristics fitting cautious allocation, moderate allocation, or aggressive allocation at any point in time. They may also regularly rotate between countries and regions.
- Morningstar GBP Flexible Allocation: funds have a mandate to invest in a range of asset types including equities, bonds, property, commodities, cash and liquid alternatives for a GBP-based investor. These portfolios tend to exhibit a ‘home bias’ but have a largely unconstrained mandate to invest in a mix of equity and non-equity securities. Funds in this category may have up to 30% gross exposure allocated to alternative sub-strategies.
- A decision to invest should take into account all of the objective and characteristics of the fund as set out in more detail in the fund documents. The relevant articles of association, prospectus, supplement and key investor information document (KIID) and/or PRIIPS KID, available in English, and the latest annual/semi-annual report (as applicable) are available free of charge by clicking on <https://www.deuterium.us/>. Complete information on the risks of investing in the Fund are set out in the Fund’s prospectus. A summary of your investor rights is available in English by clicking on <https://www.deuterium.us/>.
- The on-going charges are the fees the Fund charges to investors to cover the costs of running the Fund. Additional costs, including transaction fees, will also be incurred. These costs are paid out by the Fund, which will impact on the overall return of the Fund. For the avoidance of doubt, if you make a decision to invest, you will be buying shares in the Fund and will not be investing directly in the underlying assets of the Fund.
