Risk and Reward Profile

The calculated risk and reward category, as shown above, uses a method of calculation derived from European Union rules.

Funds in category 4 have in the past shown moderate volatility. With a fund of category 4, you have a moderate risk of losing money but your chance for gains is also moderate.

Investors should refer to the most up to date Key Investor Information Document available from the website of the Investment Manager at deuterium.us

Fund Objective, Policy and Approach

The Fund's objective is to generate positive returns over the course of the global business cycle, which typically runs for five years.

The Fund aims to achieve its objective by allocating investments across a range of asset classes including global equities, debt, currencies, commodities, property and cash. At any given time, the Fund may be invested in some or all these asset classes and may have substantial exposure to a single asset class, industry sector, country, region and bond duration.

The Fund pursues a policy of active allocation across asset classes and global markets according to a global, long-term and dynamic asset allocation model that is adjusted from time to time by short-term tactical asset allocation shifts in anticipation of changing market, fiscal and political conditions.

More information can be found in the prospectus supplement.

Source of performance data: Deuterium as at 31 August 2021 month end. Performance is in US Dollars unless otherwise stated below.

1. Deuterium Global Dynamic Allocation Fund U1 class USD ACC from 1 May 2021, with fee-adjusted A class USD ACC from 27 January 2021 to 30 April 2021. Data prior to 27 January 2021 constitutes simulated past performance as follows:

(1) The Merian Global Dynamic Allocation Fund U1 class USD ACC net of fees and charges for the period from 1 January 2016 to 15 January 2021, fee-adjusted A USD ACC from 14 July 2012 to 31 December 2015, and U1 GBP Hedged ACC in GBP from inception to 13 July 2012; and

(2) A composite of 50% FTSE World Local Index and 50% Barclays US Aggregate Bond Index for the 8 days performance period 16 January 2021 to 26 January 2021.

The Merian Global Dynamic Allocation Fund was managed from its inception by John Ricciardi supported by Daniel Matthews and with the same investment objective and investment process as the Deuterium Global Dynamic Allocation Fund.

2. 4 April 2012, the inception date of the Kestrel Global Portfolio Fund which was renamed the Merian Global Dynamic Allocation Fund on 9 December 2019.

Past performance is not necessarily a guide to future performance. The value of your investment can fall as well as rise and you may not get back the original amount you invested. The value of any foreign investments may be affected by changes in currency exchange rates.
